

CREATING HEALTHIER, MORE RESILIENT COMMUNITIES: 2025 IMPACT AT A GLANCE

Ellen Young
Chief Executive Officer
CHMRC

Hello Friend,

As we step into 2026, we're proud to share **CHMRC's 2025 Annual Impact Report**, a look at a year shaped by clarity, growth, and deeper connection to the communities we serve.

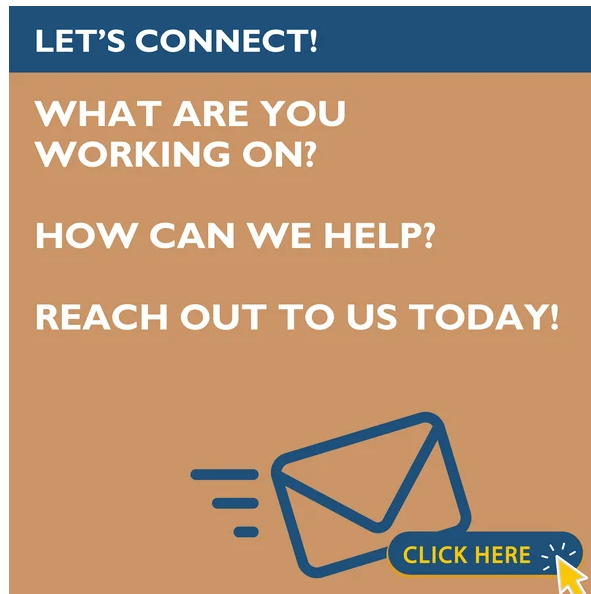

In 2025, we continued our evolution into a partnership-driven organization focused on strengthening community-based leaders, connecting systems, and building capacity that lasts. Across California, Georgia, Indiana, and beyond, our work was centered on listening first, aligning trusted partners, and turning insight into action.

At the same time, our Public Health Reporting efforts strengthened the bridge between healthcare and public health by reducing administrative burden and supporting faster, more effective response. As a nonprofit, we reinvest this work directly back into communities, closing the loop between data, action, and impact.

Our **2025 Annual Impact Report** brings these stories and outcomes together in one place. Thank you for your continued partnership and commitment to what comes next.

With Gratitude,

A handwritten signature in grey ink, appearing to read 'Ellen'.
